Workshop: Agentic AI with DeepSeek
By Duarte OC

Before we start..

- In this workshop, we will learn about building workflows and agents with DeepSeek
- Prerequisites: Intermediate knowledge of Python (we assume you have some level of experience with it)
- Duration: 60 mins including Q&A
- When you're ready, scan the barcode to get started!
- GitHub link: github.com/duarteocarmo/deepseek-agents-workshop
